About Prime Loops

Welcome to PrimeLoops.com, the definitive new supplier of modern, cutting edge sound libraries. Here you will find a wealth of highly flexible and unique samples, in all the latest formats.

Our goal is to maintain innovative new material for the creative producer, and deliver the most original sounds to put you a cut above the rest. Utilizing state-of-the-art modern studio equipment, and years of experience, discover a wealth of next generation sounds set to inspire the future.

Prime Loops is an independent music team based at the forefront of the vibrant music scene in the UK. Talented musicians, experienced sound technicians, DJs and studio engineers have come together to create a new dimension in pro-audio development, resulting in crystal clear audio fusion covering the entire spectrum.

Each sound is expertly and intricately created, optimised, and individually mastered. We take a great deal of care making sure each sample is of the utmost quality.

All our sounds are royalty free, so you can use them in your songs at no extra cost to you.

PRIME LOOPS™

NEW DIMENSION AUDIO

[About Us](#)[Series](#)[Formats](#)[License](#)[Contact](#)[Website](#)

CHAOS S E R I E S

The Chaos Series is an evolving collection of sound suites from Prime Loops. Each sound suite contains extraordinary rhythmical effects loops made from unique and extreme sounds. This cutting edge series will provide you with a new dimension of explosive loops set to give your music that extra dose of originality and put your music into total overdrive! From Nuclear Khaos, to Junk Loops, Circuit Mayhem to Static Glitch Loops, Digital Noize to Vcoded Funk, these titles and many more contain radical and unequalled loops with endless opportunities to express originality and creativity.

As always, this series has been produced and mastered to the utmost quality using the foremost technologies available, mixed, mastered and expertly produced for optimum performance. Utilizing our high definition audio recording and development gives you crystal clear audio for next generation music production. Get ready to experience the energetic, heart-racing rhythms of the future with The Chaos Series from Prime Loops.

CORE S E R I E S

It's back to basics with this fundamental series from the Prime Loops Team. Here you'll find a great selection of essential loops to maximize the foundation of your songs. From luscious Rhodes loops played and recorded by world class pianists, funky and heartfelt guitar loops from around the world, complex modern synth loops tweaked by leading cyber-heads, big chunky drum loops from studio to stage, and with many more styles and genres, these top class, high definition song-writing packages have inspired artists worldwide to create the tracks we've come to know and love.

Current titles in the series include Sunkissed House, R&B Loops Royale, Orchestra & Classical String Loops, Essential Rhodes and many more in production.

If you're looking for tried and tested charismatic foundation loops to solidify and enrich your music, then check out what this series has to offer.

DIRTY SOUTH

S E R I E S

The Dirty South Series is the ultimate platinum collection for producers looking to make the hottest Crunk, Dirty South, Hip Hop and R&B beats. This highly anticipated, best-selling series will give you that extra punch to obtain maximum presence in your mix. We have designed these explosive sound suites using the most up-to-date studio synths and state-of-the-art studio hardware technology. Synthesizers include: The Motif, Triton, Virus TI, and many others. Current titles include: Dirty South Synth Loops (Volume 1 & 2) Dirty South Drum Loops, Dirty South Loops & Breaks, Dirty South Drum Kits and many more.

The Dirty South Series has proved extremely popular due to the extensive authenticity of the loops found within these inspirational sound suites. All the titles in this series work perfectly together to create unlimited instant liquid mixes for the ultimate big hit.

Not only have we optimised these sound suites to chart standards, each sound has been specifically prepared for use within your beats, and can be easily and effortlessly incorporated into your music, copyright free, for instant platinum injection.

If you're looking for the biggest Dirty South sound, then you've definitely found the right place!

ELEMENTS

S E R I E S

This series of solid production tools provides you with all the foundation elements you need to create. Here you will find an extensive collection of sound suites containing only the highest quality individual samples. Including; pre-mapped punchy drum kits, superb instrument collections, optimised multi-samples, ready-to-go multi-format patches, explosive one shots, unbelievable effects and lots more.

The Elements Series focuses on individual samples rather than loops, and gives you the opportunity to access some of the most sought-after sounds currently available. Here you will find powerful and highly useable samples used by top professional producers with proven results worldwide.

FUSION

S E R I E S

This ground-breaking new series intelligently combines different music genres into individual sound suites for optimum creativity and originality. This exiting new approach to audio production will give you the opportunity to take your music to another level, with extremely versatile crystal clear sounds set to fuel your creative flow.

This revolutionary series is the first of its kind. Instead of supplying the conventional single genre sound packs, Prime Loops will deliver pre-mixed, optimised loops mixing many genres together in each pack, for example; 'Classical Asia meets Underground Electro,' '70's Funk meets UK Dubstep' and so on.

If you're looking for unique, imaginative, highly creative sounds set to take your music production to a new dimension, check out The Fusion Series!

GROOVES

S E R I E S

The Grooves Series is an explosive collection of sound suites containing the very best multi-tracked beats available. Whether you're a producer, singer, MC or DJ this superb series gives you instant access to a fantastic set of 'easy to use and remix' beats that are professionally pre-mastered, and 100% royalty free for use in your original productions. The Grooves Series is ideal for all levels of artists looking to create, and each sound suite contains an album's worth of high quality material or more!

Each pack contains 'Grooves' (or construction kits) for example one 'Groove folder' would contain a demo mix, and all the individual parts of the groove, for example Bass, Drums, Synth, Pad, percussion loop etc, and you can remix, layer, and add to these parts any way you want, for flawless, smooth and efficient production!

This expanding collection gives you all the material you need to get your tracks into the biggest clubs right now!

NU ERA

S E R I E S

The Nu Era series is an expanding range of unique sound suites designed specifically to give you that extra-original edge over other producers. Originality is the key to a successful musician, and unlocks the potential to take your productions to another level.

Contained within these brand new sound packs are futuristic, imaginative sounds for total inspiration. Everything has been produced with close attention to the current evolving music scene, and created using the most up to date technology to bring you to the forefront of modern production, with endless creative possibilities.

If you are looking to take your music a step further and experiment with next generation enhanced audio, then check out this ground-breaking series and see what we have to offer.

Inject the sound of tomorrow into your productions today, and hear the difference!

Formats

Choosing your desired format on our website is easy. Simply select which product you want, and which format you desire from the drop-down menu before purchasing. Knowing which format to use can give you more control over your production, and ultimately your music.

We believe it is important that you can access sounds quickly and efficiently, and this is why we will keep up to date with all the latest formats used by all hardware and software at any time. All sound suites available from our website currently come in the following formats:

QUICK LIST:

Wav, Rex2 Loops, Apple Loops, Akai MPC, Acid, Stylus RMX Loops, Reason Refills, Ableton Live Packs, Reason NN-Xt, Native Instruments Kontakt, Battery, Steinberg Halion, Logic EXS24, SFZ for Cakewalk & Sonar, Emulator X2, Motu Mach Five, Gigastudio, Roland Fantom X, Roland MV8000/8800, Roland MC909, Yamaha Motif, & Korg Triton

For a more detailed description, see below:

.WAV Loops/Samples. The most commonly used audio format compatible with 99% of Software/Hardware, PC & Mac. For a list of the most popular applications that use the .wav format see our [website](#).

REX2 Loops Rex2 files are very popular due to their flexibility. Rex2 files will sync to virtually any tempo and you can also re-arrange each element of the loop any way you choose. This format was initially intended for use with Propellerheads 'Reason' but can also be used in Stylus RMX (using the Sage converter) Digital Performer, Cubase, Logic, and many other applications, including Halion, Kontakt, and many others.

Apple Loops These loops are most commonly used with Apple's Garageband, Logic, Soundtrack, and other applications. They contain tempo information and detailed note encryption enabling the host to adjust the track tempo dramatically with the loops still in-sync.

Acid Loops/Samples Acidised - The term 'Acidised' means the loops have been specially prepared for use with Sony 'Acid' Software. In Acid you can import a loop at any virtually tempo and sync it with other Acidised loops.

AKAI MPC Samples/Loops. For use with the entire Akai MPC range. These packs will include Loops and/or samples specifically designed for the MPC Series only. You will find unique Drum Kits, Instrument programs pre-mapped onto your MPC pads, and special loops pre-cut into 'Chopshop' format (eg with the entire loop on Pad 1, and the loop regions on Pads 2-16). Plus All the Original Loops in easy to load folders.

Stylus RMX Loops These are REX2 Loops that have been specially treated for simple conversion into Stylus RMX with the Sage converter. All of our Stylus RMX Packs & REX2 Packs come with very easy to follow instructions on how to convert .rex2 loops into your Stylus RMX library with the Sage Converter. Check out the REX2 Section to find out more about what you can do with these loops.

Reason Refill Loops/Samples. For use with Proppellerheads 'Reason' only. Refills either contain loops (in REX2 format for use in the DR REX/NN-XT sampler) or patches for Reason synths such as Combinator, NN-XT, Thor and others. It is also worth noting that our Refills work with all versions of Reason!

Ableton Live Pack Loops/Samples. For use with Ableton Live only. This would either contain a selection of loops, samples, or patches (depending on what type of sound suite it is) for the Sampler, Electric, Kits for Drum Rack and others.

NN-XT Samples / Patches for use with the Reason NN-XT Sampler only. These contain a range of sounds/multi-samples pre-mapped across the keys (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals.....

HALION Samples / Patches for use with the Native Instruments Halion sampler series only. These contain a range of sounds pre-mapped across the keys (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

KONTAKT Samples / Patches for use with the Native Instruments Kontakt Sampler series only. These contain a range of sounds/multi-samples pre-mapped across the keys (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

EXS24 Samples / Patches for use with the EXS24 Sampler in Logic only. These contain a range of sounds/multi-samples pre-mapped across the keys (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals....

.SFZ Samples / Patches compatible with Cakewalk, Sonar and other applications. These contain a range of sounds/multi-samples pre-mapped across the keys (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals....

BATTERY Samples / Patches for use with the Native Instruments Battery sampler only. These contain a range of sounds/multi-samples pre-mapped across the keys/pads (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

EMULATOR X2 Samples / Patches for use with Emu's Emulator X2 sampler series only. These contain a range of sounds/multi-samples pre-mapped across the keys/pads (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

MOTU MACH FIVE Samples / Patches for use with Motu Mach Five sampler series only. These contain a range of sounds/multi-samples pre-mapped across the keys/pads (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

GIGASTUDIO Samples / Patches for use with Tascam Gigastudio only. These contain a range of sounds/multi-samples pre-mapped across the keys/pads (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

ROLAND FANTOM X Samples for use with the Roland Fantom X/Xa/S. These samples are in .wav format for ease of use with the Fantom X Series.

ROLAND MV8000/8800 Samples for use with the Roland MV-8000/8800 Series. These samples are in .wav format for ease of use with the MV-8000/8800 Series.

ROLAND MC909 Samples for use with the Roland MC 909 Series. These samples are in .wav format for ease of use with the Roland MC 909 Series.

YAMAHA MOTIF Samples / Patches for use with the Motif XS/ES/Classic only. These contain a range of sounds/multi-samples pre-mapped across the keys/pads (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

KORG TRITON Samples / Patches for use with the Triton Extreme/TR/LE/Studio only. These contain a range of sounds/multi-samples pre-mapped across the keys/pads (which can be controlled via your MIDI Keyboard or controller). These could be Drum Kits, Bass, FX, Piano, Vocals

***OTHER FORMATS** are added regularly - Our formats are updated frequently, so if you're looking for a format and it's not here, chances are it IS on our website! Check our FAQ/Formats section for all the latest formats.

COMPATIBLE PROGRAMS For a list of compatible software, hardware, keyboards and synthesizers, see [website](#).
